MEETING OF "OLD FOLKS,"

Col. Henry L. Webb, Dr. Arter, Messre. Taber, Masale, Saford and villiam-

There was a very pleasant re-union of old folks" in this city, yesterday, at the residence of Dr. Arter, on Tenth street. | police force. The party consisted of Col. Henry L. Webb, now entering the fourth quarter of his century, who located in Illinois about sixty years ago, and who, fortyeight years ago was a member of the Illinois legislature. A. B. Safford, cashier of the City National Bank, who landed among the rushes at the mouth of Chicago river thirty-four years ago; Mr. Mackie, of the firm of Mackie & Co., of this city, a gentleman whose years of maturity border upon fifty, Mr. Mears, father-in-law of D. W. Munn, who is about 70 years of age, Dr. Taber, father of the Taber Brothers, of this city, Dr. Arter, aged 74 years, and Capt. Geo. D. Williamson, an old resident of the county, although not a very old man. The venerable John S. Hacker was on a visit to his son-in-law in the country, and could not therefore accept the invitation to attend.

At one o'clock the party sat down to dinner, and right heartily did they discuss the store of well-served edibles Mrs. Arter had provided. Not one of the number was too old or feeble to partake freely of the roasts, the vegetables, the cakes the pastries, the jellies and delicious coffee that were set before them in such tempting abundance.

Within the limited space of a "local article it would be impossible to detail the reminiscences these "old folks" dug from the well of the past; to repeat the stories of old times and adventures they told : to speak of the old memories they revived or of the life they seemed to live over again. Col. Webb had lived over a half century almost within sight of the junction of these rivers, and possessing a vigor of mind and body not common with men of his age .- a most retentive memory, and rare conversational powers,-it was alike pleasant and profitable to listen to descriptions of times and scenes, the men and measures of fifty years ago. A memory of all the events, changes, Important occurences and sucidents in the early history of Southern Illinois, is still retained by him, and it is, apparently, a real pleasure to draw upon that memory for the edification of his friends, and especially for the entertainment of such a party as that of which he was the center yesterday.

Doctor and Mrs. Arter were exceedingly kind and hospitable to their invited guests, and did all they could do or should have done to make the occasion an interesting

THE EPISCOPAL PESTIVAL -The Episcopal festival, Thursday night, was unexpectedly successful. The "foreshadowings" were favorable; but who dreamed that in a single night, from strawberries, cream, lemonade, etc., the sum of six hundred dollars could be realized?

The "ring" was awarded to Miss Anna Pitcher, as the most popular young lady in attendance. Nine hundred and sixty five ten-cent votes were polled, nearly one-half of which were cast for a married lady of the city, to whose cheerful and valuable assistance much of the success realized is due. The ring netted \$96.50. The barrel of white wheat half-dozenflour, donated by Mr. Charles Galigher, was sold five or six times, netting an ag-

The Silver Cornet band added the charm of most delicious music to the occasion, drawing hundreds of persons to the front of the hall, from all parts of the city.

The crowd separated about 1 o'clock, delighted with the evening's entertainment, and assured of the pecuniary success of the occasion, by the depleted condition of their purses.

TAKE NOTICE.-TIME TABLE OF THE LLI NOIS CENTRAL RAILBOAD .- On and after Sunday, May 14th, 1871, the following time-table will govern the arrival and departure of passenger trains at Colde.

Depart-Mail train, daily,......11:45 p.m.

Sunday 3:30 p.m. Although the regular St. Louis train is taken off both trains out of Cairo will have through cars for St. Louis, which will be taker through from Du Quoin by the trains on the Belleville road. Direct and close connection will be made at Du Quoin, and there will be no change of cars from Cairo to St. Louis. The train leaving Cairo at 11:45 p.m will have a through sleeping car for St. Louis. The attention of shippers is especially called to the fact that a Fruit Express train will leave Cairo daily, Saturdays excepted, and will make the run from this city to Chicago in

-The lads composing the Independent band-pupils of Carl Wittig and other teachers-are perfecting arrangements for a calico pall, on Friday next. The ball will be held in Phillis' hall, corner of Ohio levee and Tenth street, and will doubtless draw out all the "Young Americans" and spry little misses in the city. The young masters contemplate the appointment of all kinds of committees, reception, floor, etc., and will, like "old folks," be distinguished by red, blue and yellow ribbons, and unlike "o.d folks" by an importance and assurance peculiar to "hefty" juveniles. "We'll make her boom," is the motto of the boys. We are prepared therefore for a "boomer."

JUDGE BROSS AND THE C. & V. R. R.-We give place on our first page to-day to a letter from Gen. Raum, attorney for the Cairo and Vincennes railroad company, addressed to the people along the line or said railroad. The General charges, solemnly and emphatically that the fate of the railroad is in the hands of the County Court of Alexander county, and that, unless the court reconsiders the action it has taken, and revives the "donation contract' the enterprise with which the people of Cairo and Southern Illinois have been hinging such high hopes-may be considered as effectually killed.

We have not the space this morning for extended comments; but we shall, in our next issue, give plain and outspoken exression to what we feel is the sentiments f a large majority of our citizens on this subject. In the meantime we commend the letter as one eminently worthy of the attention of every person who is concerned in the development and growth of Southern Illinois.

GERMAN SCHOOL.

The Eighth Annual Examination.

A member of the Committee that assisted Prof. Wirsching in the recent examkindly furnished us the following facts in connection therewith:

The average attendance of the school is about 55, which fact will assure the visitors present, that very few, if any, of the scholars had absented themselves to avoid the ordeal of examination. The first and second classes are primary.

The first class, consisting of 8 little fellows, from 5 to 6 years of age, showed their parents and friends what a few short months' proper training and diligence had enabled them to accomplish. quite cheerfully.

The second class, which is composed of 11 pupils, between ages of 6 and 8, betrayed excellent progress, and passed the test successfully. Edith Oherly was awarded the first premium.

The third class, composed of 11 scholars, between the ages of 7 and 11, used the First Reader, and did exceedingly well, Philip Baugh, Louis Rossman, Anna Meyer and Betty Korsmeyer bearing off the premiums for scholarship.

The forth classs use the Second Reader. The class is composed of 8 scholars, aged from 9 to 13. Ambrose Fitzgerald and Laura Rennie entitled themselves to the premiums, although all their little competitors did well.

The fifth class is composed of 9 scholars, aged from 9 to 13. The book used is the Third Reader. Carl Frank, Anna Goldstine, Willie Krosmeyer, Augusta Schuh and Frank Tell, were awarded premiums, and they deserved them.

Arithmetic is taught orally-without he use of books. In the first class, which consists of 22 members, Philip Baugh, Carl Feuchter, Rosina Fisher, Mary Fankhauser, Rosa Goldstine, Bettie Kros meyer, Annie Meyer and Edward Weil bore off premiums, of which they may justly feel proud. They were well carned In the second class in arithmetic, Carl Bauer, Anna Goldstine, Augusta Schuh. Frank Tell and Albert Belzner, were pronounced the most proficient. This class is composed of 12 children, none of whom are over 13 years of age.

supposed that the editor of the BULLETIN ever expected or desired that the building The third class in arithmetic is the fartherest advanced, and right manfully did every one of the four pupils composing it contend for the premium. The examining committee finally decided, however, that "where all did so well it would have been invidious to have discriminated," and therefore commended all of them for their proficiency.

In the translation of English into German and German into English, the pupils evinced a readiness and thoroughness that, with children under Prof. Wirsching, it is not such a formidable matter to master German and English, after all.

In the first class, in which Otto's Translator is used, the whole class, numbering twenty-one scholars, translated German into English and vice verse, with a facility that was quite astonishing to those who understood the time the class had devoted to that study. The pupils in this class were equally good.

In the second class, in which Ahr Translator is used, Miss Laura Rennie, Ambrose Fizgerald, Albert Belzner, Carl Bross and George Lattner showed themselves proficients, and carned the distinction that was awarded to them.

The third or highest class in this branch is composed of children between the ages of and I3. McGuffey's Fifth Reader, (translated into German) is used, and that, too, with an ease that evinced close study, and the exercise of good sense and sound memory. The best in this class were Anna Goldstine, Willie Korsmeyer and Augusta Schuh.

There were, also, examinations in Geography, Natural History, etc., that were uniformly successful, and entirely satisfactory to the parents of the children. From the beginning to the ending one fact was constantly prominent, and that was that the teacher had an eye single to the thoroughness of his pupils, regarding that of infinitely greater importance than rapid and unsubstantial progress. The whole examination was a verification of this statement, and an endorsement of Prof. Wirsching as a popular and successful educator.

To the picule which will be given to the children on Monday week, we refer in another column.
